

Angela grooms our three dogs including a standard poodle. She is an excellent professional dog groomer and the dogs always look immaculate when we collect them. Angela treats each dog with enormous patience and they never seem stressed or unhappy about being there. Our poodle obviously takes a long time to do especially when her hair has grown rather too long, and she always emerges relaxed and happy about what she has been through!

We had an elderly Springer spaniel who was very disabled with arthritis, and while being groomed she showed signs of discomfort. Angela would sense this and always give her a rest before continuing showing clearly her empathy with the animal.

We would have no hesitation in recommending her to other dog owners looking for a reliable and sensitive dog groomer.
